RKD Mobile are a development consultancy with many years experience in the industry. We have commercial experience developing mobile apps and web sites for many Island based clients. We offer a service throughout the whole product cycle; from initial consultancy, through design and development. As registered Apple and Google developers, we can host your app on the app stores also. We can also provide web development services, our speciality is PHP stack, which offers better value for the smaller business. We can provide technical assistance through all aspects of hosting, including domain management.
